

The Ong Family

Andrew, Rachael, Avi & Madeline

Andrew Ong came to Christ in 1998 but it was not until 2001 that he started to learn about discipleship through Kansas City Baptist Temple (KCBT).

Discipleship changed his trajectory in life and The Great Commission became a priority. He served in the college ministry under Pastor Sam Miles and pursued God through D1, D2 and Shepherd School of Ministry now Living Faith Bible Institute (LFBI).

In 2005, he was sent by KCBT to London England to assist in the mission work there. Through trips back to his home church Midtown Baptist Temple (MBT), he was reacquainted with his friend, Rachael who became his wife in 2012!

In the same year, Andrew also became a licensed minister and started an international ministry called Friends of Internationals (www.foikc.com). By God's grace, many students from all over the world came to Christ, were baptized, discipled, and are actively discipling others. The vision is to see students sent back to their home country to reach their people to Christ.

His Word, hand, and favor were very evident through these recurring trips.

In 2017, Andrew was providentially called to lead a team from his church to Vietnam. It was on this trip that God began to send a mass email to him and the team that went with him that they should come. They returned in 2018 and every year after.

We led many to Christ and specifically a faithful man!

Nam was discipled by Andrew. They meet online every week and through regular trips to Vietnam. Now, Nam has completed D1, D2, and is currently a student in Living Faith Bible Institute. Along with another female disciple, Yoomie, they are actively evangelizing and envisioning others to be discipled. Pastor Andrew is trusting God not just for people to be saved but to be sold out to Christ as disciples indeed. God has been very generous to bless us with several Vietnamese disciples and a multi-national team from the US who is willing to go make disciples in Vietnam.

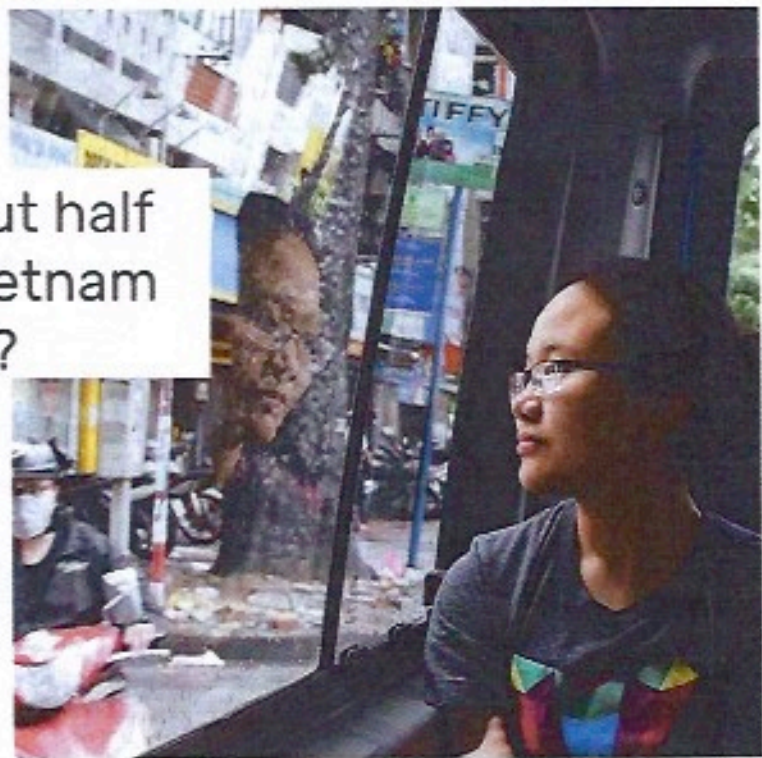

Vietnam is a communist country and meeting as a congregation without the appropriate license is prohibited.

Nevertheless, we will trust God to navigate the environment so that the vision of disciple making disciple is multiplied across this nation. Lord willing, the goal is not just to see many churches planted but to have an Antioch church in Vietnam as a model so that it can be an ensample to others that God is worth all our love, mind, and soul.

Do you know that about half of the population in Vietnam is under the age of 30?

We believe there is a window of opportunity to reach these young people. Vietnam is growing economically and is trying to project a better image of religious tolerance. If history is any indicator, this will not last long
